Experienced front-end developer with a strong background in **HTML**, **CSS**, and **JavaScript**, seeking to deliver high-quality web development solutions. Completed **50+** personal front-end development projects with clean, efficient, and elegant code.

SKILLS

HTML5

JavaScript

Sass

CSS3

React

Git

PROJECTS

Appvilla

github.com/Drougnov/Appvilla

drougnov.github.io/Appvilla

- Created a multi-page landing website with HTML, CSS, and JavaScript from scratch.
- Developed excellent user experience by making it responsive and cross-browser compatible.
- Created a beautiful user interface with a mobile-first approach including entrance animations, transitions on scroll, and carousels with swiperJS.

Todo App

github.com/Drougnov/todo-app-main

drougnov.github.io/todo-app-main

- Built a React-based todo list app with essential features such as adding, deleting, and completing tasks.
- Added drag-and-drop functionality and filter options for seamless task management and prioritization.
- Implemented a customizable interface that allows users to switch between light and dark modes.
